EDUCATION

Vellore Institute of Technology *2025 – 2029*
B.Tech in Computer Science (AI & ML Specialization) *Vellore, Tamil Nadu, India*

Delhi Public School, Ludhiana *2023 – 2025*
Class XII (CBSE): 86% **Class X (CBSE):** 91% | Punjab, India

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript
Web Development: HTML, CSS, React
Database: MySQL
Core Areas: Computer Vision, Full-Stack Development
Tools: Git, GitHub, VS Code, OpenCV

PROJECTS

Smart Vellore | *React, MySQL*
A full-stack web application enabling citizens to report civic issues such as potholes, garbage, water leakage, and public hazards via an interactive map interface.

- Designed a user-friendly reporting system with location-based inputs for seamless issue submission.
- Implemented backend logic for issue tracking and management, improving civic transparency.
- Focused on civic engagement by connecting residents with local authorities in real time.

Lane.ai | *Python, OpenCV*
A computer vision-based lane detection system that identifies and tracks road lanes in real-time images and videos, targeted at autonomous driving applications.

- Built using Python and OpenCV with classical image processing techniques for robust lane tracking.
- Implemented real-time detection pipeline designed for integration into autonomous driving systems.

ACTIVITIES & LEADERSHIP

GDSC Hackathon *2025*
Participant – Google Developer Student Clubs

- Competed in a hackathon organized by Google Developer Student Clubs, advancing to the second-to-last round.
- Collaborated in a team to engineer a functional solution under tight time constraints.
- Demonstrated problem-solving skills in a competitive, fast-paced environment.

SPORTS & EXTRACURRICULARS

Basketball & Tennis

- Active competitive player in Basketball and Tennis with extensive experience at club and inter-school levels.
- Developed strong teamwork, discipline, and leadership through consistent participation in both sports.
- Basketball: Experienced in both guard and forward positions; comfortable in fast-break and half-court systems.
- Tennis: Proficient in baseline rallying and net play; trained in singles and doubles match strategies.

RELEVANT COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Vision

INTERESTS

AI Research, Computer Vision, Building Scalable Applications, Basketball, Tennis
